Within Nine Miles of the City, at Last Advances, Having Driven the Federals Back From Trench to Trench With Little Loss to the Rebels and Heavy Loss to the Federals in the Fighting.

(Continued from Page 1)

ing. On the heels of the cavalry came other troops, and Gen. Benavides with a superior force was sent to attack Tlahualilo, a town north-east of Bernalillo.

Another Rebel Victory. At a recent irrigation ditch shortly after leaving Bernalillo Benavides came upon a federal force which he estimated to number 400. An hour's engagement ensued as a result of which the rebel commander reported to Villa the rout of the enemy, leaving 90 dead on the field. His own loss he reported as three killed and seven wounded.

This force of government troops seems to have been far in advance of support, and the town of Tlahualilo was abandoned to a rebel squad without resistance. Meanwhile Gen. Herrera occupied Santa Clara and sent a force to bridge the ditch where Benavides had vanquished opposition. Another force of rebels, under Gen. Tomas Urbina, in the midst of these exciting events had been moving on Mapima, one of the more important cities in the Torreon district, and occupied it without a fight. Urbina was reported to have moved south with his troops, but he is believed to have been wounded in the fight with federals at Rosaris last Tuesday.

Other rebel columns whose positions cannot be given with exactitude are understood to be drawing closer to the invaded city from the south and southwest.

TLAHUALILO NAMED AS NEUTRAL ZONE

Mexico City, Mex., March 23.—Tlahualilo, two hours ride from Torreon, cleans blood through kidneys.

A Most Important Function and One to be Carefully Guarded.

The purpose of the kidneys is to filter the blood. Instead of drugs and alleged kidney stimulants the better plan is to purify the blood with an antidote effect such as you get from S. S. S.

It should be remembered that the kidneys are made up of a fine network of blood vessels, and it is to stimulate the functional activity of kidney tissue, through this capillary network that S. S. S. shows one of its most remarkable effects.

The medicinal value of the components of S. S. S. are relatively just as vital to healthy kidney action, the nutrient obtained from grain, meat, fats, sugars, or any other part of our daily food is to the natural reconstructive requirement of the tissues. And there is one component of S. S. S. which serves the active purpose of stimulating the cellular tissues of the kidneys to a healthy and judicious selection of its own essential nutrient. Thus, in cases of rheumatism, cystitis, chronic sore throat, weakness of voice, bronchitis, asthma, and the myriad of other ailments, the purification of blood by S. S. S. will enable the tissues to rebuild their cellular strength and regain their normal health.

S. S. S. is prepared by The Swift Specific Co., 316 Swift Bldg., Atlanta, Ga., and if you have any deep-seated or obstinate kidney trouble, write to their Medical Dept. for free advice.

CARRANZA IS AT CASAS GRANDES

Trains Will Be Sent Down the Line Wednesday to Meet Him—Jureles Is Busy Decorating.

Venustiano Carranza, supreme chief of the revolution, who left the telegraph lines and plunged into the dry plains of the north a week ago, reappeared at Casas Grandes Sunday at the head of his 1000 troops.

The aged revolutionist was in splendid health and spirits. He was greeted enthusiastically and the day was marked by a review of the troops, concerts and dances. Carranza loves a dance as well as he ever did, and enjoyed the day hugely. Today he expects to resume the march to Jureles and to wipe out any bandit detachments of filibusters he may encounter.

Casas Grandes is on the Mexico North Western railway about 140 miles from Jureles. As a number of bridges have been destroyed, Carranza will not come to Jureles by rail, but will make his journey as he began it at Aguila Prieta, two weeks ago—on horseback, to a point south of Jureles, where a train can reach him. He will reach Jureles at the present schedule, about noon Thursday. A train will be sent out of Jureles on Wednesday to meet him. Preparations are going on here to cordially welcome the aged chief. Triumphant arches are being erected along Calle Comercio, the main street. Jureles and business men are decorating their stores with bunting and flags. The city will be alive with color when the leader reaches there.

Gen. Manuel Chao, military governor of Chihuahua, said last night that he will remain in Jureles long enough to welcome Carranza and shake his hand, when he will return to Chihuahua to go south to join the forces at Torreon.

Carranza had not left Casas Grandes for Jureles up to noon Monday. He is resting after the arduous journey by horseback from Aguila Prieta, and may begin the last leg of his trip until Tuesday, when he will reach Jureles. Gustavo Padres, mayor of Jureles, has announced the program for the celebration of Carranza's arrival. When Carranza arrives in Jureles and Carranza passes under the triumphal arches erected on Calle Comercio, Mayor Padres will make a speech to the national hygienic band which will strike up the national hymn. Carranza by Mayor Padres and the procession will move on to the monument, where the school children will sing the "Constitutionalist hymn," accompanied by a military band.

After Carranza and his staff as well as the military and civil officials now in Jureles, have grouped themselves about the monument, the program of welcome will be made by Silvestre Carranza, secretary of the state of Chihuahua, representatives of the "Honor to Liberty" march, dedicated by its author to Carranza, will then be played by the military band. Federico Gonzalez Garza, on behalf of the civil and military authorities of Jureles, will then welcome the rebels to Jureles.

Another selection by the band will be followed by an address by a student from public school No. 23, the student body of the school. This will be followed by the singing of the national hymn by the school children and spectators. The accompaniment of music from the Reyes band.

ARMIES PREPARE FOR BORDER FIGHT

Brownsville, Tex., March 23.—Preparations are in progress for a border battle which is expected to result in either the capture of Nuevo Laredo by the rebels or the taking of Matamoros by the federals.

All the field officers of the rebels at Matamoros left headquarters Sunday, leaving only Gen. Pablo Gonzalez and a few men to guard the city. Carranza is expected to be fought between Guerrero and Mier, both border points. Guerrero is occupied by Carranza's federal army of 1500 men, sent from Nuevo Laredo. The rebels have been ordered to resist Carranza's advance toward Matamoros.

VARGAS REPORTS WITHOUT FOUNDATION

Senor Sebastian Vargas, treasurer of the "Constitutionalist" army, at Chihuahua, is in Jureles with Gen. Manuel Chao, military governor of the state. The reports current among refugees in El Paso last week that Carranza had been ordered executed by the rebels are thus effectively disproved. Gen. Chao asserts that there has never been a suggestion of Carranza's execution, either as to his loyalty to the cause or his honesty in handling the "Constitutionalist" funds.

OFFICER ESCAPED FROM OLINAGA, SENT TO GUAYMAS

Douglas, Ariz., March 23.—Federico Cordova was recently captured and sent to be in Mexico City after his escape from Olinaga when Villa's army took the town. It is reported that Cordova was sent to Guaymas with the rank of colonel in the federal army. Cordova was second in command to Col. Chippa in Sonora during the first Carranza rebellion. He later operated in Sonora as a federal leader until sent with his small band into Chihuahua to join Gen. Mercado's army. He left Olinaga and crossed into the United States a few days before the fighting began. It is stated.

VILLA'S ARMY AEROPLANE TO BE SENT SOUTH TUESDAY

Villa's aeroplane will go to the front Tuesday. Harold Kentner, aviator from the Missouri factory, who is here to demonstrate the monoplane, has completed the repairs to the machine and it will be sent south on a special train Tuesday. Two more biplanes will be received here this week for the Torreon campaign. It is claimed by rebels.

OROZCO AND QUEVEDO ARE WOUNDED IN A FIGHT

Jose Orozco and Sylvester Quevedo, leaders of the federal band operating in northwestern Chihuahua, were wounded in a fight last week with rebel soldiers south of Palomas, according to reports reaching El Paso. This leaves the only federal band in that part of Chihuahua without commanders. The two men were wounded in a brush with a number of Pancho Villa's men.

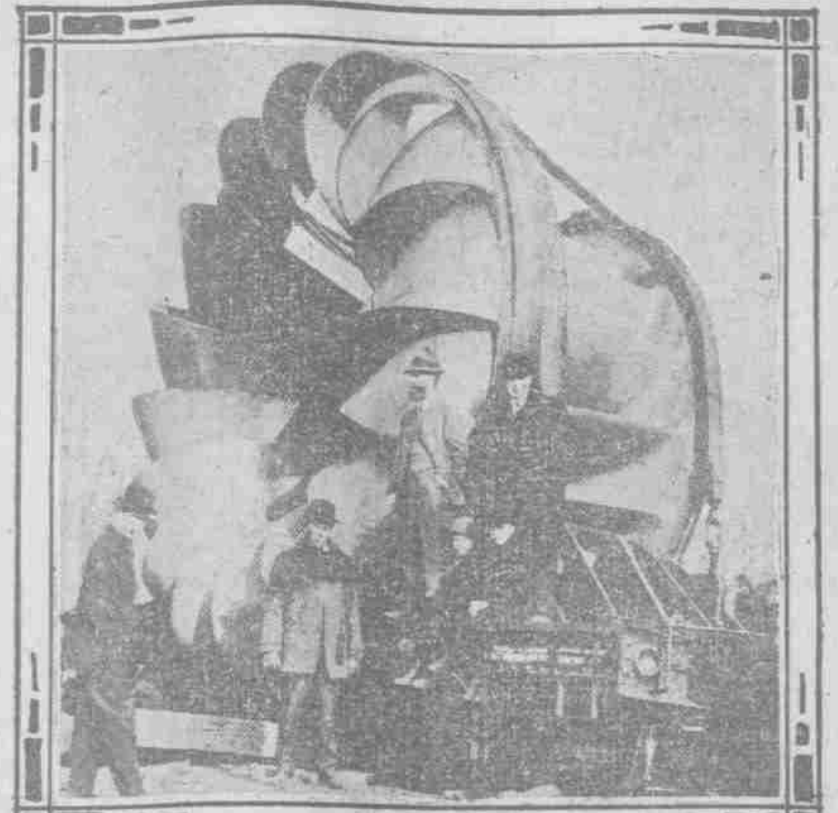

CARRANZA REFUSES TO APPOINT MORMON LANDS

Douglas, Ariz., March 23.—Gen. Carranza refused a petition of Mexican residents of Colonia Maricopa, who met him on the march to Chihuahua, and asked that the lands of the Mormon colony be allotted to them. This is stated in advices which have reached Douglas. Only four or five Mormon families now live in Colonia Maricopa and most of the houses are occupied by Mexicans.

COQUITT SILENT REGARDING ADJUTANT GENERAL'S TRIP

Austin, Tex., March 23.—Governor Coquitt did not care to discuss the nature of the visit of adjutant general George Hutchings to C. P. Dick, while it relates to the acts of lawlessness committed by Mexican bandits on this side of the border. The governor did not want to discuss his plans or those of the adjutant general at this time.

The Largest Turbine In the World

Americans are accused by their foreign critics of always talking about having the largest this and the largest that in the world. But such things are merely obvious facts, and the largest turbine in the world shown above is just another obvious fact. It is a colossal water wheel attached to the new power plant at Keokuk, Iowa. The wheel is not only many times as large as any previously built, but it is of a new design which greatly increases efficiency. The power plant of which it is a part, by the way, is also the largest of its kind in the world. It has 30 wheels like the one in this picture, generating 300,000 horsepower.

BRANCH TREASURY RECORD PETROLEUM TO STAMP CURRENCY YIELD FOR YEAR

Rebels Plan to Combat Flood of Counterfeit Money Which is Being Circulated in Jureles.

Chihuahua state government officials, Jureles civil authorities and Gen. Manuel Chao conferred Sunday morning to combat the counterfeit money problem in Jureles. Thousands of dollars worth of counterfeit "Constitutionalist" currency has been circulated in Jureles during the last two or three weeks. All real currency taken to Jureles must be examined at this office. The restamped "Constitutionalist" money is now selling for 21 cents in El Paso.

Certain-teed ROOFING

GUARANTEED

The General says:

"Some roofing jobbers and dealers refuse to handle Certain-teed Roofing because the profit is not big enough to satisfy them."

Certain-teed Roofing

They have not realized that service to their customers builds the best business for themselves. The dealer who is doing the biggest roofing business in his community is the dealer who handles Certain-teed Roofing—because he recognizes service to his customers as the biggest part of his job—and more customers as his reward.

He knows, just as you know, that Certain-teed Roofing will give you the best, the longest and the guaranteed service. He is willing to take his modest profit on Certain-teed Roofing in preference to an inflated profit on any other brand, because he knows there are many more roofing buyers just like you who know and have faith in Certain-teed Roofing and in him.

When you buy roofing of such a dealer as this, you know it is the best roofing service you can buy for your buildings because it is Certain-teed—guaranteed for fifteen years—backed by the world's three biggest roofing mills, endorsed by your local dealer whom you know and who meets you face to face when he sells it to you.

Certain-teed Roofing is sold at a reasonable price everywhere by dealers who believe in giving unsurpassed quality at a fair profit. The amount of Certain-teed Roofing required for an average roof, say ten squares, will cost less than \$5 over the cheap, mail-order grade. This small initial cost is saved many times in the fifteen years' wear which is covered by the manufacturer's guarantee.

Nature Still "Casts Out Devils"

If you don't think they're REAL devils, just let them accumulate as in blood of demons appear. A whole direction, flatulence, heartburns, indigestion, jaundice, congestion of the liver. Later these grow into Bright's Disease, Typhoid, Malaria, etc.

There's one thing these devils cast out and that is Bile. Bile is Nature's great cleanser and disinfectant. When it's dammed up, all the above troubles appear. Release it and they disappear. Like mist before the rising sun. That's why salts, mineral waters, oil and common laxatives fail to flush the intestines. Bile, but more, flush the intestines.
